

TIMEZ ATTACK now includes **Multiplication, Division, Addition & Subtraction!**

Timez Attack is an online math facts game that ALL Duplin County students have access to until the end of April 2012! It is a fun way to memorize math facts as you progress through different levels and unlock new worlds.

Students may play on any computer with internet access. The first time the game is played on a computer, it takes it a few minutes to set up. When using that same computer again, the game starts **much** more quickly.

First Time Directions for Non-school Computers

- **You MIGHT need to turn off your Firewall
- go to www.bigbrainz.com
- choose "Paid", "School Use", and then "Get Started"
- choose the download for "Windows" or "Mac", depending on your computer
- choose "Run", and proceed through the setup process
- when prompted, select "North Carolina", "Duplin County", and your school
- the password is "student"** (you can change your personal password later if you'd like)
- choose your grade level, then choose your name (If your name is not listed, let your teacher know so he/she can add it.)

After Logging On the First Time

- If there is an icon on your desktop, click it to begin
- If there is no icon, click on "Start", "Programs", "Timez Attack Launcher", and "Timez Attack Launcher" again

Enjoy the game!
