

## COLLABORATIVE GROUP WORK

### Group Monitoring Tool

**Directions:** Use the tool below to observe and record the conversation that occurs as your group works. Record any evidence of collaboration, quotations from group members and, if possible, tally marks to indicate the number of times the evidence was observed.

Observation Questions	Evidence/Quotations	Number of Times Observed
How do group members (students) demonstrate collaboration in the group?		
How do group members (students) work together to develop consensus/understanding?		
What is the evidence that group members (students) are digging deeper into the topic?		
How did the group (students) confront challenges or difficulties?
